

This is to ask you to please not take any action that would require that radio stations, such as K-love, in Portland, Oregon, to be displaced by local stations. K-love is listener sponsored and should reveal to you just how important their messages and music are to millions of listeners, throughout our community. Obviously our public seeks and finds great encouragement and peace from what comes over the radio from K-love, as it is different from any other radio station we have. Please secure K-love in Portland, OR from ever being shut off. Thanks you very much for your help.
